

SAINT ANTHONY STATUE

There is a new addition to the Monsignor Schmit CYO Athletic Complex. There is now a beautiful statue of St. Anthony at the main entrance near the flagpoles.

The statue of St. Anthony comes to us from the former Toledo St. Anthony church, which has been closed.

Closing any parish or school is never easy and this one was no exception. When it was decided this past summer to transfer this statue from the former church to the CYO Complex it was done for two reasons.

First so that the thousands of people who walk through the gate of “our” Complex each year will be able to share in the beauty and ask for blessings from St. Anthony as they pass by the statue.

Secondly, it was transferred as a way to help with the healing process of all those who were affected by the parish closings.

This beautiful statue is a great addition to “our” CYO Athletic Complex.
