Mission Statement

Catholic Charities makes real the love that God has for each individual person regardless of their faith or background by serving the poor, speaking for and assisting the neglected and forgotten, respecting and promoting life from beginning to end and nurturing and supporting individuals and families.

Vision Statement

Catholic Charities is an organization that is Christ-centered, makes an impact in our community, is transformational for those we serve, and is driven by a clear faith-based mission.

History/Overview of Services

Catholic Charities began in 1914 to provide care and protection to orphans and single mothers. Since then the agency has grown to provide assistance to individuals, families and groups through direct social services, consultation, case management services, resources and in-service training for parish-based ministry programs, advocacy and justice education. While several programs are coordinated from a particular office, many services are available throughout the diocese.
