A college tuition benefit that increases each year

In the following example, after the subscriber signs up, one child is registered and is given 500 Student Tuition Rewards points. If that child attends a participating SAGE Scholars College, the published full price tuition will be reduced by at least $17,000, divided evenly over four years of undergraduate education.

The average cost of a four-year college education is expected to increase over 140% by 2033.³

See how Guardian plan participants can earn even more rewards with multiple Guardian products.

This is just an example — participants can refer to their plan details to see what coverage they have.
